GEOLOGICAL JOURNAL

CONTENTS

Volume 30, Issues Nos 1–4

Issue No. 1, March 1995

Lower Carboniferous (Dinantian) Stratigraphy and Structure in the Kingscourt Outlier, Ireland: P. Strogen, I. D Somerville, N. A. H. Pickard and G. Ll. Jones 1

Hydrocarbon Migration in the Solway Basin: J. Parnell 25

Palaeomagnetism of the Tan Y Grisiau Granite, North Wales: Evidence for a Subvolcanic Origin in Late Ordovician Times: J. D. A. Piper, D. A. G. Nowell and T. P. Crimes 39

Magnetic Crustal Character in Central Ireland: P. Morris and M. D. Max 49

Gutter Casts from the Proterozoic Bijaygarh Shale Formation, India: Their Implication for Storm-induced Circulation in Shelf Settings: C. Chakraborty 69

BOOK REVIEWS 79

Issue No. 2, June 1995

A Rigid-bodied Ediacaran Biota from Upper Cambrian Strata in Co. Wexford, Eire: T. P. Crimes, A. Insole and B. P. J. Williams 89

Late Cambrian Acritarchs and Their Age Constraints on an Ediacaran-type Fauna from the Booley Bay Formation, Co. Wexford, Eire: M. Moczydłowska and T. P. Crimes 111

Revision of the Carboniferous Cystoporate Bryozoan *Fistulipora incrustans* (Phillips, 1836), with Remarks on the Type Species of *Fistulipora* M'Coy, 1849: A. J. Bancroft and P. N. W. Jackson 129

New Litho- and Biostratigraphic Evidence for a Mid-Ordovician Hiatus in Southern Central Snowdonia, North Wales: M. Smith, A. W. A. Rushton and M. F. Howells 145

Geomorphological Evidence from the Lleyn Peninsula Constraining Models of the Magnitude and Rate of Isostatic Rebound During Deglaciation of the Irish Sea Basin: D. McCarroll 157

Stratigraphy and Structure of Devonian Fluvial Sediments, Western Beara Peninsula, South-West Ireland: A. James and J. R. Graham 165

A Natural Example of Mud Diapirs Formed in Wet Sediment: R. Cave and A. W. Rushton 183

Discussion of 'The West Spitsbergen Fold Belt: The Result of Late Cretaceous–Palaeocene Greenland–Svalbard Convergence? by N. Lyberis and G. M. Manby: W. B. Harland 189

Reply: N. Lyberis and G. Manby 191

Kinematic Analysis—The Sense of Shear-sense. Discussion of 'Essay Review: Kinematic Analysis—Pure Nonsense or Simple Nonsense' by D. Flinn: S. Hanmer and C. Passchier 197

BOOK REVIEWS 199

Issue No. 3 & 4, December 1995

Preface: A. Boyle 205

Controls on the Nucleation and Growth of Porphyroblasts: Kinetics from Natural Textures and Numerical Models: W. D. Carlson, C. Denison and R. A. Ketcham 207

Mechanistic Interactions Between Deformation and Metamorphism: E. H. Rutter and K. H. Brodie 227

Rate and Time Controls on Metamorphic Processes: D. Vance. 241

Are Reaction Textures Reliable Guides to Metamorphic Histories? Timing Constraints from Garnet Sm–Nd Chronology for 'Decompression' Textures in Granulites from Søstrene Island, Prydz Bay, Antarctica: B. J. Hensen, B. Zhou and D. E. Thost 261

Pre-Middle Silurian Granitic Magmatism and Asssociated Metamorphism in Northern Japan: SHRIMP U–Pb Zircon Chronology: T. Watanabe, C. M. Fanning, K. Uruno and H. Kano. 273

Palaeogene K—Ar Ages from the Kamuikotan Metamorphic Rocks, Southern Area of the Kamuikotan Gorge, Central Hokkaido, Northern Japan: I. Iwasaki, T. Watanabe, T. Itaya, M. Yamazaki and Y. Takigami 281

Diffusive Equilibration Between Minerals During Cooling: An Analytical Extension to Dodson's Equation for Closure in One Dimension: R. Powell and L. White 297

Ultrametamorphism in Precambrian Granulite Terrains: Evidence from Mg–Al Granulites and Calc-silicate Granulites of the Eastern Ghats, India: S. Dasgupta and P. Sengupta 307

Low Pressure–High Temperature Metamorphism in the Vredefort Dome, South Africa: Anticlockwise Pressure–Temperature Path Followed by Rapid Decompression: R. L. Gibson and T. Wallmach 319

Pressure–Temperature–Time Paths and the Relationship Between Collision, Deformation and Metamorphism in the North-West Himalaya: P. J. Treloar 333

Structural and Metamorphic Evolution of the Nanga Parbat Syntaxis, Pakistan Himalayas, on the Indus Gorge Transect: The Importance of Early Events: J. Wheeler, P. J. Treloar and G. J. Potts 349

Petrographic Evidence for Diachronous Metamorphism of the Skaiti Supergroup, Köli Nappe Complex, Artic Scandinavian Caledonides: R. K. Westhead and A. P. Boyle 373

Inverted Metamorphic Zonation in a Basement-derived Nappe Sequence, Eastern Margin of the Bohemian Massif: P. Štípská and K. Schulmann . . . 385

Formation of Gneisses of Migmatite and Diatexite Appearance in Yell, Shetland, by Solid-state Grain-growth Recrystallization: D. Flinn 415
